

SHO-ME®

HI-INTENSITY SPOT LIGHTS

Operation of your spot light requires no tools or electric connections; most vehicles are supplied with a cigarette lighter. Simply remove the cigarette lighter element from its receptacle, insert the plug end of the spot light power cord and push the switch on the handle of the light to the "ON" position. Make certain the plug is inserted fully into the receptacle.

Should your vehicle not be supplied with a cigarette lighter, we recommend using our model 01.0312 Battery Clip Extension. To use: connect the clips at the end of the cord directly to the battery posts. Red to positive + and black to negative - (to insure good electrical connection, the battery posts should be clean and free of residue build-up). Insert the plug end of the spot light power cord into the receptacle at the end of the extension cord and push the switch on the handle of the light to the "ON" position.

CAUTION:

The lens of this light will become very warm with use. Do not leave lens down on flammable materials while lighted. Do not place hands or other body parts against lens while lighted. Be certain that light is "OFF" if stored while plugged in.

This product is intended for 12-volt DC use ONLY!

LIMITED WARRANTY

ALL PRODUCTS are manufactured by skilled craftsmen using the finest material. PRODUCTS are guaranteed (except bulbs) against defective materials and workmanship for the period of 1 year from date of purchase. Defective parts will be repaired or replaced, without charge during the guarantee period when it is delivered prepaid to Able 2 Products Co., Inc., PO Box 543, 804 E. Hwy 248, Cassville, Missouri 65625-0543. It will be put in first class operating condition and returned to the sender prepaid. A packing slip should be included with all shipments, giving the sender's name, address and description of defect. DO NOT RETURN PRODUCT TO DEALER FOR SERVICE. This only delays your service. The guarantee does not apply to shipping damage, accident, alteration, tampering with, misuse or abuse and unauthorized service.
