

MODEL NO. 11.2715 LED Triple Light Stick

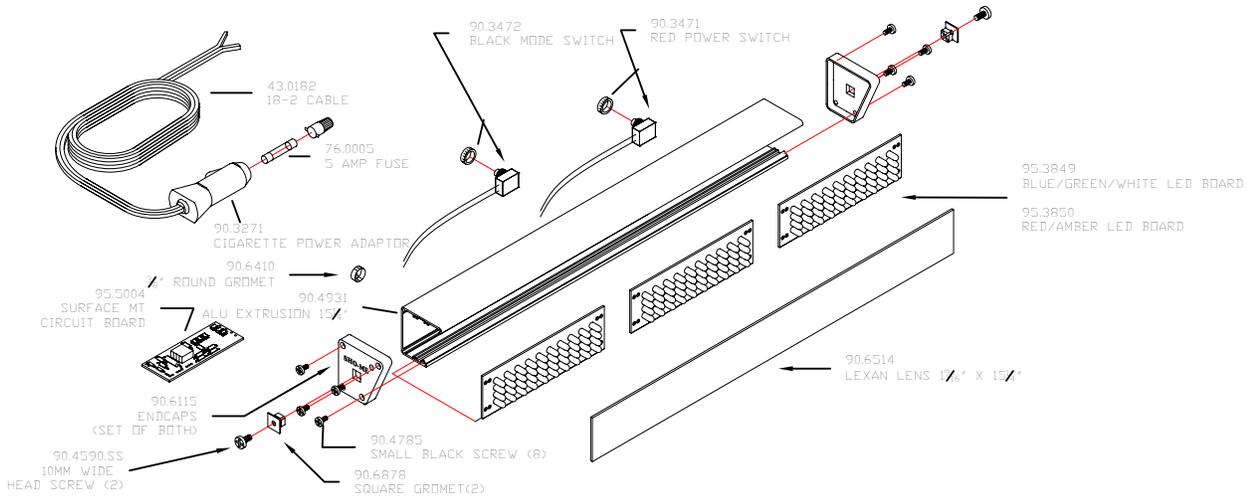

GENERAL INFORMATION

The LED Light Bar features two switches, **Power-ON/OFF** and **Mode-to select the flash pattern**. When selecting a flash pattern hold mode button down until flashing stops, then release button for next flash pattern. When the power is turned off then back on, the LED Light will resume the exact flash pattern as before power was interrupted. The LED Light has seven flash patterns to choose from:

- | | |
|---|-------------------------------|
| 1. Quad (Outside, then inside) | 5. Sequentially (800 per min) |
| 2. Quad (All three groups) | 6. Dbl. Flash (1 & 3, then 2) |
| 3. Quad (One group at a time) | 7. Automatic Random Select |
| 4. Alternating (Two outside then inside,
200 flashes per minute, per side) | |

INSTALLATION INSTRUCTIONS

Choose a location to mount your LED Light Stick, keeping in mind the airbag deployment area and any other obstacles. Mount the LED Light Stick and connect to lighter or accessory outlet.
