

MODEL NO.  
11.2842 Black

### LED Duo Dash Light with Internal Flasher

#### GENERAL INFORMATION:

The Duo Dash Light is a compact, highly visible emergency warning light. It has a 7 flash patterns: Double Alternating, Quad Alternating, Quint Alternating, Mega Alternating, Double Simultaneous, Quad Simultaneous and Automatic Random Select.

#### INSTALLATION INSTRUCTIONS:

1a. **LED Light Installation With Bracket**

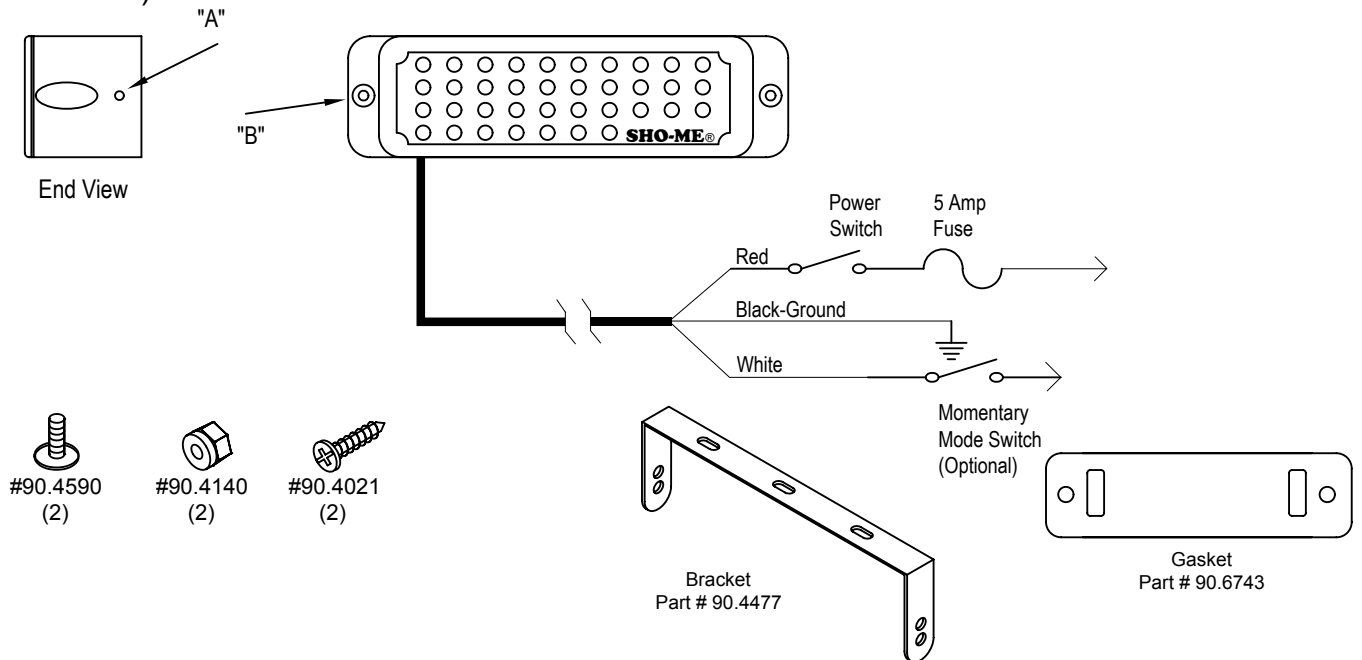

Drill out the mounting hole, Point A, on each end of the LED Light to 11/ 64". Attach the bracket to desired location. Then place the LED Light into the bracket and attach it using the shorter screws and locknuts. The gasket will not be needed.

1b. **LED Light Installation Without Bracket**

Use Point B. Drill the (2) holes on the mounting surface for the LED Light using an LED Light as a guide. Place the gasket under the LED Light. Attach the LED Light using (2) longer screws provided.

1c. **Optional Mounting-** Headliner Bracket, Windshield Brackets, Velcro, and L-Brackets.

2. After mounting the Duo Dash Light, wire to power switch (not included) and momentary switch (optional) as shown in diagram below. (Keep in mind Air Bag Deployment area and other obstacles.)
