

MODEL NO. 11.8341.CONT  
LED "By The Inch" Arrow Stick  
Complete with Controller

**GENERAL INFORMATION**

The LED "By The Inch" Arrow Stick alerts traffic in the direction they need to follow. The Arrow Stick (Model No.11.8341) comes complete with controller (Model No. 11.1000). The controller has an ON/OFF switch, Rotary switch and Speed Control Dial.

**NOTE:** Shielded wire must be grounded at the Controller. The LED Arrow Stick has twelve flash patterns from which to choose:

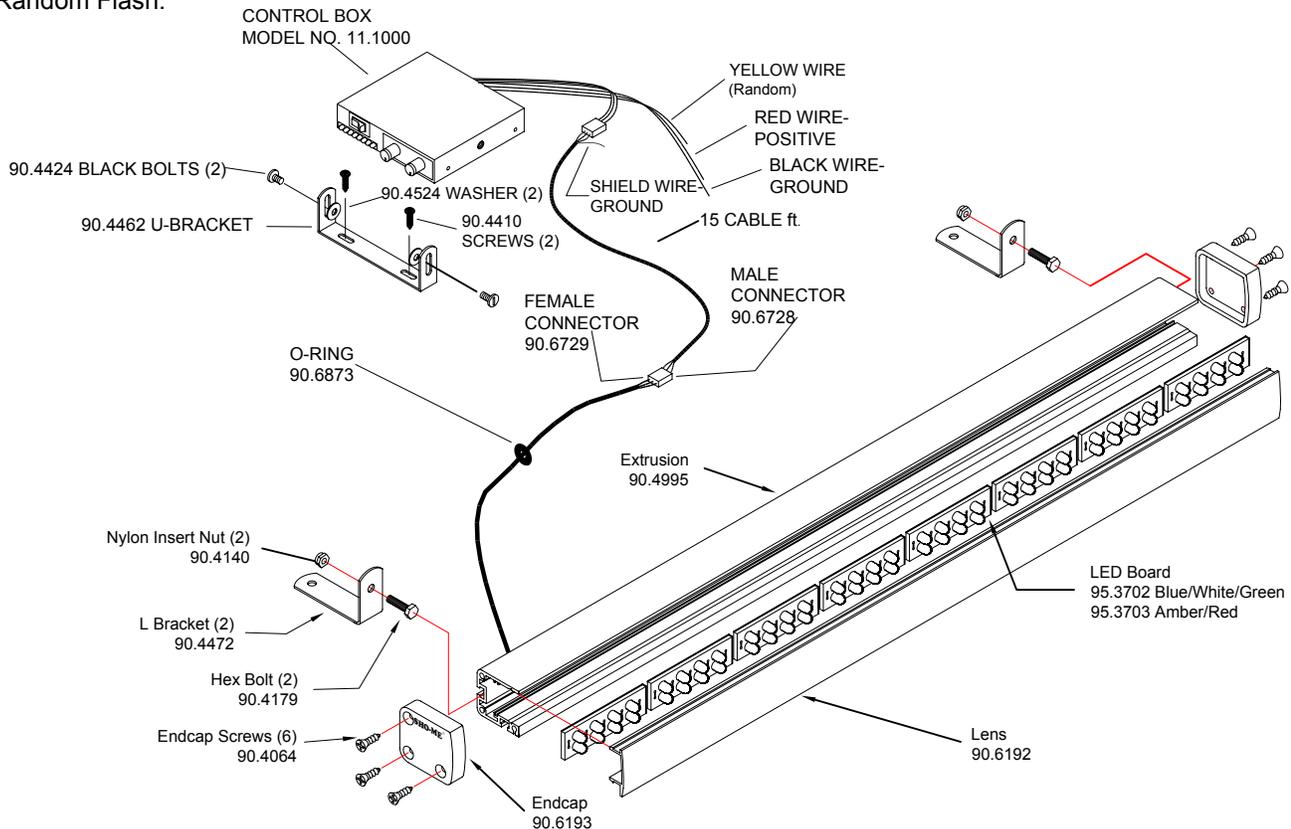

- |                                  |                           |
|----------------------------------|---------------------------|
| 1. Random Flash - (Patterns 2-7) | 7. Left 4 Right 4         |
| 2. Quad Flash 2-2                | 8. Center Out             |
| 3. Quad Flash 4-4                | 9. Right * w/Double Flash |
| 4. Double Flash 2-2              | 10. Right                 |
| 5. Double Flash 4-4              | 11. Left * w/Double Flash |
| 6. Center 2 Outer 2              | 12. Left                  |

**INSTALLATION INSTRUCTIONS**

Use the L- brackets (included) to mount the LED Arrow Stick. To install mounting bolts to the signal stick, remove 4 screws from the end cap and install the mounting bolts into the desired t-slot as shown in drawing, then re-install the end cap.

**WIRING INSTRUCTIONS:**

Black wire to Ground, Red wire to Positive +12V and Yellow wire to switch +12V (Optional). Yellow wire activates the arrow stick in a Random Flash Pattern when +12v is applied. When operating arrow stick with controller, All Arrow Stick functions will override the Random Flash.
