INSTALLATION INSTRUCTIONS:

Determine location to mount your Luminator LED Stretch Bar. Attach bolts to bottom of your SHO-ME Luminator LED Stretch Bar. Keep in mind airbag deployment area and any other obstacles. Run wire inside of vehicle and connect to switch. A momentary switch is required to change flash patterns.

If mounting this product requires drilling holes, the installer MUST be sure that no vehicle components or other vital parts could be damaged by the drilling process. Check both sides of the mounting surface before drilling begins. Also de-burr any holes and remove any metal shards or remnants. Install grommets into all wire passage holes.

Use only soap and water to clean the outer lens. Use of other chemicals could result in premature lens cracking and discoloration. Lenses in this condition have significantly reduced effectiveness. Inspect and operate this product regularly to confirm its proper operation and mounting condition. **Do not use a pressure washer to clean this product.**
